FRESH

Summer is right around the corner and even though it's hot out you want to stay cool but still look "hot". Here are some how toos from the pros at Fresh Hair Studio.

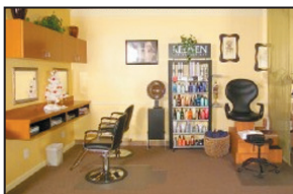

Pony tails are the obvious answer for some. Here are 2 ways to make your pony fresh. Deep side parts are a trend this season.

While your hair is damp part law and comb to the side - not straight back. After securing with a band pull into the bottom of your pony tail and wrap some hair around to cover the band. Secure with a bobby pin. The second way is to leave a 3 inch by 3 inch section in the front of your hair out then pull remaining hair into a pony tail. Bring the 3 x 3 section straight back adding a bit of a pump then pin. You'll have a cute little runway do. Last trick for hot summer looks. Mix a small amount of sea salt with water in a spray bottle. Spray into hair to get that fresh off the beach sexy look.

Check out Freshhairstudiopa.com for more looks to keep you looking great all summer long!
